

BSI Standards Publication

Determination of particle size distribution — Single particle light interaction methods

Part 2: Light scattering liquid-borne particle counter

National foreword

This British Standard is the UK implementation of ISO 21501-2:2019. It supersedes BS ISO 21501-2:2007, which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee LBI/37, Particle characterization including sieving.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
