Styrene-butadiene rubber (SBR) — Determination of the microstructure of solution- polymerized SBR

Part 2: FTIR with ATR method

bsi.

...making excellence a habit.™

National foreword

This British Standard is the UK implementation of ISO 21561-2:2016. Together with BS ISO 21561-1:2015, it supersedes BS ISO 21561:2005+A1:2010 which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee PRI/22, Testing and analysis of rubber.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
