

**Carbonaceous
materials used in the
production of
aluminium —
Determination of
density by gas
pyknometry
(volumetric) using
helium as the analysis
gas — Solid materials**

ICS 71.100.10

National foreword

This British Standard was published by BSI. It is the UK implementation of ISO 21687:2007.

The UK participation in its preparation was entrusted to Technical Committee CII/24, Raw materials for the aluminium industry.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.
