

BSI Standards Publication

Diagnosing moisture damage in buildings and implementing countermeasures

Part 1: Principles, nomenclature and moisture transport mechanisms

National foreword

This British Standard is the UK implementation of [ISO 22185-1:2021](#).

The UK participation in its preparation was entrusted to Technical Committee RHE/2, Ventilation for buildings, heating and hot water services.

A list of organizations represented on this committee can be obtained on request to its committee manager.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
