Welding and allied processes — Process specification for laser-arc hybrid welding for metallic materials

National foreword

This British Standard is the UK implementation of ISO 23493:2020.

The UK participation in its preparation was entrusted to Technical Committee WEE/36, Qualification of welding personnel and welding procedures.

A list of organizations represented on this committee can be obtained on request to its committee manager.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
