Cigarettes — Determination of benzo[a] pyrene in cigarette mainstream smoke with an intense smoking regime using GC/MS

Part 1: Method using methanol as extraction solvent

National foreword

This British Standard is the UK implementation of ISO 23906-1:2020.

The UK participation in its preparation was entrusted to Technical Committee AW/40, Tobacco and tobacco products.

A list of organizations represented on this committee can be obtained on request to its committee manager.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
