

BSI Standards Publication

**Plastics — Polyols for use in the  
production of polyurethanes  
— Determination of basicity  
(total amine value), expressed  
as percent nitrogen**

**National foreword**

This British Standard is the UK implementation of ISO 25761:2014. It supersedes BS ISO 25761:2008 which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee PRI/42, Fibre reinforced thermosetting plastics and prepregs.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
