Foreword

This revision of this Part of BS 3958 is one of a series published under the direction of the Refrigeration, Heating and Air Conditioning Standards Committee to specify requirements for a particular range of insulating materials. It supersedes the 1967 edition which is withdrawn.

Other Parts of BS 3958 are:

Part 1 Magnesite preformed insulation

Part 2 Calcium silicate preformed insulation

Part 4 Bonded preformed man-made mineral fibre pipe sections

Part 5 Bonded mineral wool slabs (for use at temperatures above 50 °C)

Part 6 Finishing materials; hard setting composition, self-setting cement and gypsum plaster.

Compliance with a British Standard does not of itself confer immunity from legal obligations.
