

Methods for

Analysis of oilseed residues

**Part 12. Determination of glucosinolates
content by high-performance liquid
chromatography**

Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee AW/2, Oilseeds and residues, upon which the following bodies were represented:

- FOSFA International
- Grain and Feed Trade Association
- Leatherhead Food Research Association
- Ministry of Agriculture, Fisheries and Food
- National Farmers' Union
- National Institute of Agricultural Botany
- Seed Crushers' and Oil Processors' Association
- Tropical Growers' Association
- United Kingdom Agricultural Supply Trade Association

This British Standard, having been prepared under the direction of the Consumer Products and Services Sector Board, was published under the authority of the Standards Board and comes into effect on 15 May 1996
