

Noise and vibration control on construction and open sites

Part 3. Code of practice applicable to surface coal extraction by opencast methods

ICS 17.140.20; 17.160; 73.020

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by Technical Committee B/209, General building codes, to Subcommittee B/209/17, Noise control on open sites, upon which the following bodies were represented:

Association of Consulting Engineers
British Aggregate Construction Materials Industries
British Coal Corporation
British Compressed Air Society
Building Employers' Confederation
Chartered Institute of Environmental Health
Concrete Society
Construction Health and Safety Group
Construction Plant-Hire Association
Department of the Environment (Building Research Establishment)
Department of the Environment (Pollution Control and Waste Directorate)
Federation of Civil Engineering Contractors
Federation of Dredging Contractors
Federation of Piling Specialists
Institution of Civil Engineers
Sand and Gravel Association Limited

This British Standard, having been prepared under the direction of the Sector Board for Building and Civil Engineering, was published under the authority of the Standards Board and comes into effect on 15 May 1997
