Contents

Foreword *ii*

Introduction *1*

- 1** Scope *1*
- 2** Normative references *1*
- 3** Terms and definitions *2*
- 4** Need for emergency lighting *2*
- 5** Emergency lighting to be considered for specific locations *2*
- 6** Portable emergency luminaires *4*
- 7** Testing, maintenance and recordkeeping *5*
- 8** Procedures to limit the risks of annual full duration testing *5*

Annexes

Annex A (informative) Guidance on illuminance measurements and calculations *6*

Annex B (informative) UK requirements for emergency lighting – general information *8*

Annex C (informative) Responses to queries on BS 5266-1 *10*

Annex D (informative) Compliance checklist and report for an existing site *17*

Bibliography *21*

List of figures

Figure A.1 – Conventional escape route where the floor is the working plane *6*

Figure A.2 – Cooking stove where the surface of the stove is the working plane *7*

Figure A.3 – Fire panel needing to be read on the vertical plane *7*

List of tables

Table 1 – Illuminance recommendations for specific locations *4*

Table D.1 – Compliance checklist and report for an existing site *18*

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, pages 1 to 21 and a back cover.
