

Safety of earth-moving machinery —

**Part 7: Specification for laboratory
evaluations of roll-over and
falling-object protective structures: the
deflection-limiting volume for
earth-moving machinery**

UDC 621.878/.879-78

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Technical Committee B/513, Construction equipment and plant, and site safety, to Subcommittee B/513/1, Earth-moving machinery, upon which the following bodies were represented:

Associated Offices Technical Committee
 British Coal Corporation
 Construction Plant (Hire Association)
 Federation of Civil Engineering Contractors
 Federation of Manufacturers of Construction Equipment and Cranes
 Health and Safety Executive
 Institution of Civil Engineers
 Institution of Highways and Transportation
 Silsoe Research Institute

This British Standard, having been prepared under the direction of the Technical Committee B/513, was published under the authority of the Standards Board and comes into effect on 15 October 1992
