
Code of practice for safe use of cranes —

Part 2: Inspection, testing and examination

ICS 55.020.20

Confirmed
November 2008

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by Technical Committee MHE/3, Cranes and derricks, to Subcommittee MHE/3/11, Crane safety and testing, upon which the following bodies were represented:

Association of Lorry Loaders Manufacturers and Importers
 CEA — The Construction Equipment Association
 Construction Confederation
 Construction Health and Safety Group
 Construction Plant-Hire Association
 Electricity Association
 Health and Safety Executive
 Institution of Occupational Safety and Health
 Institution of Structural Engineers
 Low Power Radio Association
 Safety Assessment Federation Ltd.

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 22 April 2003

Foreword	iii
<hr/>	
Introduction	1
1 Scope	1
2 Normative references	1
3 Terms and definitions	1
4 General	4
5 Personnel carrying out pre-use checks, in-service inspections and thorough examinations	4
6 Periodic pre-use checks and in-service inspections	5
7 Thorough examinations	6
8 Pre-use checks and in-service inspections for cranes and other equipment not in use for an extended period of time	9
9 Testing as part of thorough examination	10
10 Data logging	14
11 Additional recommendations for cranes for lifting persons and suspended baskets	14
12 Assessment of wire rope condition and discard criteria	16
13 Additional recommendations for mobile cranes	31
14 Additional recommendations for overhead travelling cranes	40
15 Additional recommendations for tower cranes	43
16 Additional recommendations for loader cranes	48
<hr/>	
Annex A (informative) Information to be contained in a report of a thorough examination	53
Annex B (informative) Beaufort scale	54
Annex C (informative) Sea state code	54
Annex D (informative) Example of load test certificate	55
Annex E (normative) Example of personnel carrier pre-use check form	56
Annex F (informative) Example of a wire rope test certificate	57
Annex G (informative) Example of typical procedure for climbing frame thorough examinations and checks	58
Annex H (informative) Tower crane foundation pre-erection inspection certificate	60
