

Chemical tests for raw and vulcanized rubber —

Part 21: Determination of nitrogen content

ICS 83.040.10; 83.060

Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee PRI/23, Chemical testing of rubbers, upon which the following bodies were represented:

Malaysian Rubber Producers' Research Association
Ministry of Defence
RAPRA Technology Ltd.
Royal Society of Chemistry

This British Standard, having been prepared under the direction of the Sector Board for Materials and Chemicals, was published under the authority of the Standards Board and comes into effect on 15 June 1996

© BSI 09-1999

First published September 1990
Second edition June 1996
