Ref. No. ISO 5553-1980 (E)

Descriptors : meat, meat products, detection, orthophosphates, chromatographic analysis, test specimen conditioning.

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been set up has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 5553 was developed by Technical Committee ISO/TC 34, *Agricultural food products*, and was circulated to the member bodies in March 1979.

It has been approved by the member bodies of the following countries :

Australia	Germany, F. R.	Philippines
Austria	Hungary	Poland
Brazil	India	Romania
Bulgaria	Israel	South Africa, Rep. of
Canada	Kenya	Spain
Cyprus	Korea, Rep. of	Thailand
Czechoslovakia	Libyan Arab Jamahiriya	Turkey
Egypt, Arab Rep. of	Mexico	United Kingdom
Ethiopia	Netherlands	Yugoslavia
France	New Zealand	

No member body expressed disapproval of the document.
