**Contents**

<b>1</b>	<b>Scope</b> .....	<b>1</b>
<b>2</b>	<b>Normative references</b> .....	<b>1</b>
<b>3</b>	<b>Biodynamic coordinate systems</b> .....	<b>2</b>
<b>3.1</b>	<b>Direction</b> .....	<b>2</b>
<b>3.2</b>	<b>Biodynamic coordinate systems for the whole body</b> .....	<b>2</b>
<b>3.2.1</b>	<b>Whole-body anatomical coordinate system</b> .....	<b>2</b>
<b>3.2.2</b>	<b>Basicentric coordinate systems for the whole body</b> .....	<b>3</b>
<b>3.3</b>	<b>Segmental anatomical coordinate systems</b> .....	<b>4</b>
<b>3.3.1</b>	<b>Anatomical coordinate system: head</b> .....	<b>4</b>
<b>3.3.2</b>	<b>Anatomical coordinate system: root of neck</b> .....	<b>4</b>
<b>3.3.3</b>	<b>Anatomical coordinate system: upper torso</b> .....	<b>4</b>
<b>3.3.4</b>	<b>Anatomical coordinate system: pelvis</b> .....	<b>4</b>
<b>3.4</b>	<b>Biodynamic coordinate systems for the hand</b> .....	<b>5</b>
<b>3.4.1</b>	<b>Anatomical coordinate system: hand</b> .....	<b>5</b>
<b>3.4.2</b>	<b>Basicentric coordinate system for hand-transmitted force or motion</b> .....	<b>6</b>
<b>Annex A (informative)</b>		
	<b>Diagrammatic illustrations of biodynamic coordinate systems</b> .....	<b>7</b>
<b>Annex B (informative)</b>		
	<b>Explanatory notes concerning the anatomical frame of reference and the biodynamic coordinate systems for the hand</b> .....	<b>12</b>
<b>Annex C(informative)</b>		
	<b>Bibliography</b> .....	<b>13</b>

## Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work. ISO collaborates closely with the International Electrotechnical Commission (IEC) on all matters of electrotechnical standardization.

Draft International Standards adopted by the technical committees are circulated to the member bodies for voting. Publication as an International Standard requires approval by at least 75 % of the member bodies casting a vote.

International Standard ISO 8727 was prepared by Technical Committee ISO/TC 108, *Mechanical vibration and shock*, Subcommittee SC 4, *Human exposure to mechanical vibration and shock*.

Annexes A to C of this International Standard are for information only.
