

# INTERNATIONAL STANDARD

ISO  
8860-1

First edition  
1987-07-01

INTERNATIONAL ORGANIZATION FOR STANDARDIZATION  
ORGANISATION INTERNATIONALE DE NORMALISATION  
МЕЖДУНАРОДНАЯ ОРГАНИЗАЦИЯ ПО СТАНДАРТИЗАЦИИ

**Information processing — Data interchange on 90 mm  
(3.5 in) flexible disk cartridges using modified  
frequency modulation recording at 7 958 ftprad on  
80 tracks on each side —**

**Part 1 :**  
**Dimensional, physical and magnetic characteristics**

*Traitement de l'information — Échange de données sur cartouches à disquette de 90 mm  
(3,5 in) utilisant un enregistrement à modulation de fréquence modifiée (MFM) à 7 958 ftprad  
sur 80 pistes sur chaque face —*

*Partie 1 : Caractéristiques dimensionnelles, physiques et magnétiques*

## Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council. They are approved in accordance with ISO procedures requiring at least 75 % approval by the member bodies voting.

International Standard ISO 8860-1 was prepared by Technical Committee ISO/TC 97, *Information processing systems*.

Users should note that all International Standards undergo revision from time to time and that any reference made herein to any other International Standard implies its latest edition, unless otherwise stated.
