ASME Pipeline Standards Compendium

PTB-9-2014

ASME PIPELINE STANDARDS COMPENDIUM

Date of Issuance: November 19, 2014

This ASME Pipeline Standards Compendium was prepared as an account of work sponsored by ASME.

Neither ASME, the authors, nor others involved in the preparation or review of this document, nor any of their respective employees, members or persons acting on their behalf (i) makes any warranty, express or implied, or assumes any legal liability or responsibility for the accuracy, completeness or usefulness of any information, apparatus, product or process disclosed, or (ii) represents that its use would not infringe upon privately owned rights.

ASME does not “approve,” “rate,” or “endorse” any item, construction, proprietary device or activity. Reference in the document to any particular commercial product, process or service by trade name, trademark, manufacturer or otherwise does not necessarily constitute or imply its endorsement, recommendation or favoring by ASME or others involved in the preparation or review of this document. The views and opinions expressed in the document do not necessarily reflect those of ASME or others involved in the preparation or review of this document.

ASME does not take any position with respect to the validity of any patents or other proprietary rights asserted in connection with any items mentioned in this document, and does not undertake to insure anyone using the document against liability for infringement of any applicable patents or other proprietary rights, nor does it assume any such liability. Users of the document are expressly advised that the determination of the validity of any and all such rights, and the risk of infringement of such rights, is entirely their own responsibility.
