

JEDEC PUBLICATION

COPY-EXACT PROCESS FOR MANUFACTURING

JEP185

AUGUST 2021

JEDEC SOLID STATE TECHNOLOGY ASSOCIATION

NOTICE

JEDEC standards and publications contain material that has been prepared, reviewed, and approved through the JEDEC Board of Directors level and subsequently reviewed and approved by the JEDEC legal counsel.

JEDEC standards and publications are designed to serve the public interest through eliminating misunderstandings between manufacturers and purchasers, facilitating interchangeability and improvement of products, and assisting the purchaser in selecting and obtaining with minimum delay the proper product for use by those other than JEDEC members, whether the standard is to be used either domestically or internationally.

JEDEC standards and publications are adopted without regard to whether or not their adoption may involve patents or articles, materials, or processes. By such action JEDEC does not assume any liability to any patent owner, nor does it assume any obligation whatever to parties adopting the JEDEC standards or publications.

The information included in JEDEC standards and publications represents a sound approach to product specification and application, principally from the solid state device manufacturer viewpoint. Within the JEDEC organization there are procedures whereby a JEDEC standard or publication may be further processed and ultimately become an ANSI standard.

No claims to be in conformance with this standard may be made unless all requirements stated in the standard are met.

Inquiries, comments, and suggestions relative to the content of this JEDEC standard or publication should be addressed to JEDEC at the address below, or refer to www.jedec.org under Standards and Documents for alternative contact information.

Copy-Exact Process for Manufacturing

	Contents	Page
Foreword		iii
Introduction		iii
1 Scope		1
2 Normative reference		1
3 Terms and definitions		2
3.1 automated process control (APC)		2
3.2 certificate of compliance (CofC)		2
3.3 copy-exact process (CEP)		2
3.4 fault detection and classification (FDC)		2
3.5 human factors		2
3.6 key process parameter (KPP)		2
3.7 process control system (PCS)		2
4 General		3
4.1 Objectives		3
5 Elements of Copy-Exact Process and Methods		4
5.1 Integration of elements		4
5.2 Inputs		7
5.2.1 Inputs requirements		7
5.3 Factory and equipment infrastructure		7
5.4 Process controls and procedures		8
5.5 Human factors		8
5.6 Process indicators		9
5.6.1 Input indicators		9
5.6.2 Control parameters and key process parameters		9
5.6.3 Inline quality data		9
5.6.4 Inline reliability data		9
