**COMMISSION ÉLECTROTECHNIQUE INTERNATIONALE
NORME DE LA CEI**

**INTERNATIONAL ELECTROTECHNICAL COMMISSION
IEC STANDARD**

Publication 113-8
Première édition — First edition
1982

Schémas, diagrammes, tableaux

Huitième partie : Etablissement des schémas pour manuels des instructions fonctionnelles

Diagrams, charts, tables

Part 8: Preparation of diagrams for system manuals

Mots clés: manuel d'entretien pour systèmes;
schémas.

Key words: system maintenance manual;
diagrams.

INTERNATIONAL ELECTROTECHNICAL COMMISSION

DIAGRAMS, CHARTS, TABLES

Part 8: Preparation of diagrams for system manuals

FOREWORD

- 1) The formal decisions or agreements of the IEC on technical matters, prepared by Technical Committees on which all the National Committees having a special interest therein are represented, express, as nearly as possible, an international consensus of opinion on the subjects dealt with.
- 2) They have the form of recommendations for international use and they are accepted by the National Committees in that sense.
- 3) In order to promote international unification, the IEC expresses the wish that all National Committees should adopt the text of the IEC recommendation for their national rules in so far as national conditions will permit. Any divergence between the IEC recommendation and the corresponding national rules should, as far as possible, be clearly indicated in the latter.

PREFACE

This standard has been prepared by Sub-Committee 3B: Preparation of Diagrams, Charts and Tables — Item Designation, of IEC Technical Committee No. 3: Graphical Symbols.

A first draft was discussed at the meeting held in Oslo in 1976.

A second draft was discussed at the meeting held in Paris in 1978. As a result of this meeting, a revised draft, Document 3B(Central Office)23, was submitted to the National Committees for approval under the Six Months' Rule in September 1979.

The National Committees of the following countries voted explicitly in favour of publication of this Part 8:

Australia	South Africa (Republic of)
Belgium	Sweden
Canada	Switzerland
Denmark	Turkey
Egypt	Union of Soviet
Finland	Socialist Republics
Israel	United Kingdom
Italy	United States of America
Romania	

France cast a negative vote for the following reasons: the contents of the publication is such that Sub-Committee 3B is encroaching upon the scope of Technical Committee No. 56: Reliability and Maintainability. The aims and methods proposed are not expressed clearly enough with respect to all branches of electrotechnology or for equipment manufactured in small quantities only.

Other IEC publications quoted in this standard:

- Publications Nos. 113: Diagrams, Charts, Tables.
117: Recommended Graphical Symbols.
617: Graphical Symbols for Diagrams.
