### Révision de la présente publication

The technical content of IEC publications is kept under constant review by the IEC, thus ensuring that the content reflects current technology.

Information on the work of revision, the issue of revised editions and amendment sheets may be obtained from IEC National Committees and from the following IEC sources:

- o **Bulletin de la CIEI**
- o **Annuaire de la CIEI**
- o **Catalogue des publications de la CIEI**  
Publié annuellement

### Terminologie

For general terminology, readers are referred to IEC Publication 50: International Electrotechnical Vocabulary (IEV), which is issued in the form of separate chapters each dealing with a specific field, the General Index being published as a separate booklet. Full details of the IEV will be supplied on request.

The terms and definitions contained in the present publication have either been taken from the IEV or have been specifically approved for the purpose of this publication.

### Symboles graphiques et littéraux

For graphical symbols, and letter symbols and signs approved by the IEC for general use, readers are referred to:

- la Publication 27 de la CIEI: Symboles littéraux à utiliser en électrotechnique;
- la Publication 617 de la CIEI: Symboles graphiques pour schémas.

The symbols and signs contained in the present publication have either been taken from IEC Publications 27 or 617, or have been specifically approved for the purpose of this publication.

### Publications de la CIEI établies par le même Comité d'Études

The attention of readers is drawn to pages 3 and 4 of the cover, which list IEC publications issued by the Technical Committee which has prepared the present publication.

### Revision of this publication

The technical content of IEC publications is kept under constant review by the IEC, thus ensuring that the content reflects current technology.

Information on the work of revision, the issue of revised editions and amendment sheets may be obtained from IEC National Committees and from the following IEC sources:

- o **IEC Bulletin**
- o **IEC Yearbook**
- o **Catalogue of IEC Publications**  
Published yearly

### Terminology

For general terminology, readers are referred to IEC Publication 50: International Electrotechnical Vocabulary (IEV), which is issued in the form of separate chapters each dealing with a specific field, the General Index being published as a separate booklet. Full details of the IEV will be supplied on request.

The terms and definitions contained in the present publication have either been taken from the IEV or have been specifically approved for the purpose of this publication.

### Graphical and letter symbols

For graphical symbols, and letter symbols and signs approved by the IEC for general use, readers are referred to:

- IEC Publication 27: Letter symbols to be used in electrical technology;
- IEC Publication 617: Graphical symbols for diagrams.

The symbols and signs contained in the present publication have either been taken from IEC Publications 27 or 617, or have been specifically approved for the purpose of this publication.

### IEC publications prepared by the same Technical Committee

The attention of readers is drawn to pages 3 and 4 of the cover, which list IEC publications issued by the Technical Committee which has prepared the present publication.
