

# JEDEC STANDARD

---

## Fully Buffered DIMM Design for Test, Design for Validation (DFx)

---

### JESD82-28A.01

(Editorial revision of JESD82-28A, July 2008)

SPECIAL DISCLAIMER: JEDEC has received information that certain patents or patent applications may be relevant to this standard, and, as of the publication date of this standard, no statements regarding an assurance or refusal to license such patents or patent applications have been provided.

<http://www.jedec.org/download/search/FBDIMM/Patents.xls>

JEDEC does not make any determination as to the validity or relevancy of such patents or patent applications. Prospective users of the standard should act accordingly.

## NOTICE

JEDEC standards and publications contain material that has been prepared, reviewed, and approved through the JEDEC Board of Directors level and subsequently reviewed and approved by the JEDEC legal counsel.

JEDEC standards and publications are designed to serve the public interest through eliminating misunderstandings between manufacturers and purchasers, facilitating interchangeability and improvement of products, and assisting the purchaser in selecting and obtaining with minimum delay the proper product for use by those other than JEDEC members, whether the standard is to be used either domestically or internationally.

JEDEC standards and publications are adopted without regard to whether or not their adoption may involve patents or articles, materials, or processes. By such action JEDEC does not assume any liability to any patent owner, nor does it assume any obligation whatever to parties adopting the JEDEC standards or publications.

The information included in JEDEC standards and publications represents a sound approach to product specification and application, principally from the solid state device manufacturer viewpoint. Within the JEDEC organization there are procedures whereby a JEDEC standard or publication may be further processed and ultimately become an ANSI standard.

No claims to be in conformance with this standard may be made unless all requirements stated in the standard are met.

Inquiries, comments, and suggestions relative to the content of this JEDEC standard or publication should be addressed to JEDEC at the address below, or refer to [www.jedec.org](http://www.jedec.org) under Standards and Documents for alternative contact information.
