

BSI Standards Publication

## Neutron reference radiation fields

---

Part 3: Calibration of area and personal dosimeters and determination of their response as a function of neutron energy and angle of incidence

## National foreword

This British Standard is the UK implementation of [ISO 8529-3:2023](#). It supersedes [BS ISO 8529-3:1998](#), which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee NCE/2, Radiation protection and measurement.

A list of organizations represented on this committee can be obtained on request to its committee manager.
