S

National foreword

This British Standard is the English language version of EN ISO 11885 : 1997. It is identical with ISO 11885 : 1996.

The UK participation in its preparation was entrusted by Technical Committee EH/3, Water quality, to Subcommittee EH/3/2, Physical, chemical and biochemical methods, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this subcommittee can be obtained on request to its secretary.

Cross-references

Attention is drawn to the fact that CEN and CENELEC standards normally include an annex which lists normative references to international publications with their corresponding European publications. The British Standards which implement international or European publications referred to in this document may be found in the BSI Standards Catalogue under the section entitled 'International Standards Correspondence Index', or by using the 'Find' facility of the BSI Standards Electronic Catalogue.

BS EN ISO 11885 is one of a series of standards on water quality, others of which have been, or will be, published as Sections of BS 6068. This standard has therefore been given the secondary identifier BS 6068-2.60. The various Sections of BS 6068 are comprised within Parts 1 to 7, which, together with Part 0, are listed below.

Part 0	<i>Introduction</i>
Part 1	<i>Glossary</i>
Part 2	<i>Physical, chemical and biochemical methods</i>
Part 3	<i>Radiological methods</i>
Part 4	<i>Microbiological methods</i>
Part 5	<i>Biological methods</i>
Part 6	<i>Sampling</i>
Part 7	<i>Precision and accuracy</i>

NOTE. The tests described in this British Standard should only be carried out by suitably qualified persons with an appropriate level of chemical expertise. Standard chemical procedures should be followed throughout.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, the EN ISO title page, the EN ISO foreword page, the ISO title page, page ii, pages 1 to 13, the annex ZA page, and inside back cover and a back cover.

Amendments issued since publication

Amd. No.	Date	Text affected

This British Standard, having been prepared under the direction of the Health and Environment Sector Board, was published under the authority of the Standards Board and comes into effect on 15 April 1998

English version

Water quality - Determination of 33 elements by inductively
 coupled plasma atomic emission spectroscopy (ISO
 11885:1996)

Qualité de l'eau - Dosage de 33 éléments par
 spectroscopie d'émission atomique avec plasma couplé par
 induction (ISO 11885:1996)

Wasserbeschaffenheit - Bestimmung von 33 Elementen
 durch induktiv gekoppelte Plasma-Atom-
 Emissionsspektrometrie (ISO 11885:1996)

This European Standard was approved by CEN on 30 October 1997.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
