National foreword

This British Standard has been prepared under the direction of the Pressure Vessel Standards Policy Committee and is the English language version of EN 286-3 : 1994 *Simple unfired pressure vessels designed to contain air or nitrogen — Part 3 : Steel pressure vessels designed for air braking equipment and auxiliary pneumatic equipment for railway rolling stock*, published by the European Committee for Standardization (CEN). It supersedes BS 3256 : 1960 which is withdrawn.

EN 286-3 was produced as a result of international discussions in which the United Kingdom took an active part.

Compliance with a British Standard does not of itself confer immunity from legal obligations.
