

Australian Standard[®]

**Chainsaws—Guide to safe working
practices**

This Australian Standard was prepared by Committee SF/33, Chainsaw Safety. It was approved on behalf of the Council of Standards Australia on 28 March 1997 and published on 5 July 1997.

The following interests are represented on Committee SF/33:

Australian National University
Australian Timber Trainers Association
German–Australian Chamber of Industry and Commerce
Metal Trades Industry Association of Australia
Outdoor Power Equipment Association
Plastics and Chemicals Industry Association
Primary Industries (SA) Forestry
Queensland Forest Research Institute
State Forests of New South Wales
Swedish Chamber of Commerce
Tasmanian Forest Industries Training Board
Victorian Association of Forest Industries
WorkCover Authority of NSW
Workplace Standards Authority (Tasmania)

Review of Australian Standards. To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

This Standard was issued in draft form for comment as DR 96167.
