National foreword

This British Standard has been prepared under the direction of the Consumer Products and Services Sector Board and is the English language version of EN 1139 : 1994 *Fruit and vegetable juices — Enzymatic determination of D-isocitric acid content - NADPH spectrometric method*, published by the European Committee for Standardization (CEN). EN 1139 was produced as a result of international discussions in which the United Kingdom took an active part.

Compliance with a British Standard does not of itself confer immunity from legal obligations.
