## Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Plastics and Rubber Standards Policy Committee (PRM/-) to Technical Committee PRM/21, upon which the following bodies were represented:

- British Plastics Federation
- British Steel Industry
- British Telecommunications plc
- British Textile Confederation
- Department of Trade and Industry (National Physical Laboratory)
- EEA (The Association of Electronics, Telecommunications and Business Equipment Industries)
- Electrical and Electronic Insulation Association (BEAMA Ltd.)
- Electrical Installation Equipment Manufacturers' Association (BEAMA Ltd.)
- GAMBICA (BEAMA Ltd.)
- Ministry of Defence
- Packaging and Industrial Films Association
- PIRA
- Plastic Industrial Containers Association
- Plastics and Rubber Institute
- RAPRA Technology Ltd.
- Yarsley Technical Centre.

This British Standard, having been prepared under the direction of the Plastics and Rubber Standards Policy Board, was published under the authority of the Standards Committee and comes into effect on  
1 April 1992

## Contents

	Page
Committees responsible	Inside front cover
Foreword	ii
<b>Method</b>	
1 Scope	1
2 Principle	1
3 Apparatus	1
4 Choice of rotational frequency and spindle	1
5 Procedure	3
6 Expression of results	3
7 Test report	3
<b>Annexes</b>	
A General application to resins in the liquid state, emulsions and dispersions	4
B Principle, description and characteristics of viscometers A, B and C	6
<b>Tables</b>	
1 Rotational frequencies available for the three types of viscometer	1
2 Maximum value of viscosity (Pa·s) as a function of viscometer type, rotational frequency and spindle	2
3 Coefficient $k$ (scale 0 to 100) for each rotational frequency-spindle combination	3
A.1 Recommended test conditions	4
<b>Figures</b>	
A.1. Viscosity range (logarithmic scale) for every spindle of the A, B and C viscometers at a rotational frequency of $10 \text{ min}^{-1}$	5
B.1 No. 1 spindle and guard stirrup	7
B.2 Spindles Nos. 2 to 6	7
B.3 Spindle No. 7	7
