S

National foreword

This British Standard is the English language version of EN ISO 10964 : 1997. It is identical with ISO 10964 : 1993. It supersedes BS 5350 : Part G1 : 1987 which will be withdrawn on the 97-11-30.

The UK participation in its preparation was entrusted to Technical Committee STI/52, Adhesives, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

The United Kingdom did not support this standard at the CEN Unique Acceptance Procedure (UAP) Stage for the following reason:

The principle, materials and techniques involved are not conducive to accurate and reproducible measurement and as such the Standard cannot be relied upon as a means of assuring quality or comparative performance. This is because the concept of 'breakloose' torque has proved difficult to measure accurately, head bolt friction is difficult to control and the zinc phosphate surfaces used are not themselves standardized. Furthermore, the adhesive application and assembly techniques can entrap air which leads to performance variations.

A list of organizations represented on this committee can be obtained on request to its secretary.

Cross-references

Attention is drawn to the fact that CEN and CENELEC Standards normally include an annex which lists normative references to international publications with their corresponding or European publications. The British Standards which implement these international or European publications may be found in the BSI Standards Catalogue under the section entitled 'International Standards Correspondence Index', or by using the 'Find' facility of the BSI Standards Electronic Catalogue.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, the EN ISO title page, the EN ISO foreword page, the ISO title page, page ii, pages 1 to 4, the annex ZA page, a blank page, an inside back cover and a back cover.

This British Standard, having been prepared under the direction of the Sector Board for Materials and Chemicals, was published under the authority of the Standards Board and comes into effect on 15 October 1997

English version

**Adhesives - Determination of torque strength of
anaerobic adhesives on threaded fasteners
(ISO 10964:1993)**

Adhésifs - Détermination des couples
fonctionnels sur des fixations filetées collées
avec des adhésifs anaérobies (ISO 10964:1993)

Klebstoffe - Bestimmung der Drehfestigkeit von
anaeroben Klebstoffen auf Befestigungselementen
mit Gewinde (ISO 10964:1993)

This European Standard was approved by CEN on 1997-05-28. CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

The European Standards exist in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
