

Tests for mechanical and physical properties of aggregates —

Part 6: Determination of particle density and water absorption

The European Standard EN 1097-6:2000, with the incorporation of amendment A1:2005, has the status of a British Standard

ICS 91.100.15

National foreword

This British Standard is the official English language version of EN 1097-6:2000, including Corrigendum December 2002 and including amendment A1:2005, which is included in a package of new European Standards being prepared by CEN/TC 154 relating to aggregates. Although the English language versions of these European Standards will be adopted as British Standards as they become available, the existing British Standards for aggregates will be retained, but only until such time that the completed package of European Standards becomes available. The original group of British Standards will then be withdrawn and this will be noted in *Update Standards*.

The start and finish of text introduced or altered by CEN amendment is indicated in the text by tags $\langle A1 \rangle$ $\langle A1 \rangle$. Tags indicating changes to CEN text carry the number of the CEN amendment. For example, text altered by CEN amendment A1 is indicated by $\langle A1 \rangle$ $\langle A1 \rangle$.

The UK participation in its preparation was entrusted by Technical Committee B/502, Aggregates, to Subcommittee B/502/6, Test methods, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this subcommittee can be obtained on request to its secretary.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the BSI Catalogue under the section entitled “International Standards Correspondence Index”, or by using the “Search” facility of the *BSI Electronic Catalogue* or of British Standards Online.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, the EN title page, pages 2 to 29 and a back cover.

The BSI copyright date displayed in this document indicates when the document was last issued.

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 15 November 2000

Amendments issued since publication

Amd. No.	Date	Comments
14306 Corrigendum No. 1	31 March 2003	Replacement of equation in A.4.4
15908 Amendment No. 1	16 December 2005	See national foreword

English version

**Test for mechanical and physical properties of aggregates —
Part 6: Determination of particle density and water absorption
(includes amendment A1:2005)**

Essais pour déterminer les caractéristiques mécaniques et physiques des granulats — Partie 6: Détermination de la masse volumique réelle et du coefficient d'absorption d'eau (inclut l'amendement A1:2005)

Prüfverfahren für mechanische und physikalische Eigenschaften von Gesteinskörnungen — Teil 6: Bestimmung der Rohdichte und der Wasseraufnahme (enthält Änderung A1:2005)

This European Standard was approved by CEN on 18 August 2000; amendment A1:2005 was approved by CEN on 11 August 2005.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden, Switzerland and United Kingdom.
