

RATIFIED EUROPEAN TEXT

EN12373-6:1998

European Standards only exist formally as national transpositions (i.e. a BS EN for the UK) of a commonly agreed "ratified" text.

This document is a ratified text which will shortly be published as a BS EN. It is being made available in advance of its formal publication to give interested parties early access to the technical information which the BS EN will contain.

When the BS EN is formally published it will be supplied to you automatically, without any additional charge.

Purchasers of this ratified text should be aware of the following limitations when using the document.

- The BS EN may contain additional information in the national foreword or national annex,
- Full rights conferred by compliance with the standard may only be granted by reference to the formal national transposition of the text as a BS EN.
