

Packaging — Flexible tubes — Test method for the airtightness of closures

The European Standard EN 12377:1998 has the status of a
British Standard

ICS 55.120

National foreword

This British Standard is the English language version of EN 12377:1998.

The UK participation in its preparation was entrusted by Technical Committee PKW/2, Primary packaging, to Subcommittee PKW/2/6, Packages made from flexible materials, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this subcommittee can be obtained on request to its secretary.

Textual note

The draft European Standard prEN 12374, referred to in clauses 2 and 7 of this standard, has now been published as the European Standard EN 12374:1998.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the BSI Standards Catalogue under the section entitled "International Standards Correspondence Index", or by using the "Find" facility of the BSI Standards Electronic Catalogue.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, the EN title page, pages 2 to 4, an inside back cover and a back cover.

Amendments issued since publication

Amd. No.	Date	Text affected

Descriptors: packing, flexible packaging, plastic packaging, metal packaging, tubes, closing devices, stoppers, inspections, gas permeability

English version

Packaging — Flexible tubes — Test method for the airtightness of closures

Emballage — Tubes souples — Méthode d'essai de
l'étanchéité à l'air des bouchons d'obturation

Packmittel — Tuben — Prüfverfahren zur
Bestimmung der Luftdichtheit der Verschlüsse

This European Standard was approved by CEN on 4 September 1998.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
