

INTERNATIONAL STANDARD 4277

INTERNATIONAL ORGANIZATION FOR STANDARDIZATION · МЕЖДУНАРОДНАЯ ОРГАНИЗАЦИЯ ПО СТАНДАРТИЗАЦИИ · ORGANISATION INTERNATIONALE DE NORMALISATION

Cryolite, natural and artificial — Conventional test for evaluation of free fluorides content

Cryolithe, naturelle et artificielle — Essai conventionnel pour l'évaluation de la teneur en fluorures libres

First edition — 1977-11-15

UDC 661.8 : 553.634 : 546.161 : 543.24

Ref. No. ISO 4277-1977 (E)

Descriptors : aluminium ores, cryolite, chemical analysis, determination of content, fluorides, volumetric analysis.

Price based on 3 pages

FOREWORD

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been set up has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 4277 was developed by Technical Committee ISO/TC 47, *Chemistry*, and was circulated to the member bodies in September 1975.

It has been approved by the member bodies of the following countries :

Austria	India	Sweden
Belgium	Israel	Switzerland
Brazil	Italy	Thailand
Bulgaria	Mexico	Turkey
Egypt, Arab Rep. of	Poland	U.S.A.
France	Romania	U.S.S.R.
Germany	South Africa, Rep. of	
Hungary	Spain	

The member body of the following country expressed disapproval of the document on technical grounds :

United Kingdom

This International Standard has also been approved by the International Union of Pure and Applied Chemistry (IUPAC).
