1690

INTERNATIONAL ORGANIZATION FOR STANDARDIZATION • МЕЖДУНАРОДНАЯ ОРГАНИЗАЦИЯ ПО СТАНДАРТИЗАЦИИ • ORGANISATION INTERNATIONALE DE NORMALISATION

**Sodium and potassium silicates for industrial use —
Determination of silica content — Gravimetric method
by insolubilization**

*Silicates de sodium et de potassium à usage industriel — Dosage de la silice — Méthode gravimétrique
par insolubilisation*

First edition — 1976-02-15

ANSI Internat Doc Sect FEB 24 1976

UDC 661.83.65 : 546.28 : 543.21

Ref. No. ISO 1690-1976 (E)

Descriptors : sodium silicates, potassium silicates, chemical analysis, determination of content, silicon dioxide, gravimetric analysis.

Price based on 3 pages

FOREWORD

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO Member Bodies). The work of developing International Standards is carried out through ISO Technical Committees. Every Member Body interested in a subject for which a Technical Committee has been set up has the right to be represented on that Committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the Technical Committees are circulated to the Member Bodies for approval before their acceptance as International Standards by the ISO Council.

Prior to 1972, the results of the work of the Technical Committees were published as ISO Recommendations; these documents are now in the process of being transformed into International Standards. As part of this process, Technical Committee ISO/TC 47 has reviewed ISO Recommendation R 1690 and found it technically suitable for transformation. International Standard ISO 1690 therefore replaces ISO Recommendation R 1690-1970 to which it is technically identical.

ISO Recommendation R 1690 was approved by the Member Bodies of the following countries :

Australia	Hungary	Portugal
Austria	India	Romania
Belgium	Iran	South Africa, Rep. of
Brazil	Israel	Spain
Colombia	Italy	Switzerland
Czechoslovakia	Japan	Thailand
Egypt, Arab Rep. of	Netherlands	Turkey
France	New Zealand	United Kingdom
Germany	Peru	U.S.S.R.
Greece	Poland	Yugoslavia

No Member Body expressed disapproval of the Recommendation.

No Member Body disapproved the transformation of ISO/R 19760 into an International Standard.
