**Sodium chloride for industrial use — Determination of
the loss of mass at 110 °C**

First edition — 1973-01-15

ANSI Internat Doc Sect

JAN 16 1973

UDC 661.833.321 : 543.71

Ref. No. ISO 2483-1973 (E)

Descriptors : sodium chloride, chemical analysis, gravimetric analysis, moisture content.

Price based on 2 pages

FOREWORD

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO Member Bodies). The work of developing International Standards is carried out through ISO Technical Committees. Every Member Body interested in a subject for which a Technical Committee has been set up has the right to be represented on that Committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the Technical Committees are circulated to the Member Bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 2483 was drawn up by Technical Committee ISO/TC 47, *Chemistry*.

It was approved in January 1972 by the Member Bodies of the following countries :

Austria	Ireland	South Africa, Rep. of
Belgium	Italy	Spain
Chile	Korea, Dem.P.Rep. of	Switzerland
Czechoslovakia	Morocco	Thailand
Egypt, Arab Rep. of	Netherlands	United Kingdom
France	New Zealand	U.S.S.R.
Germany	Poland	U.S.A.
Hungary	Portugal	
India	Romania	

No Member Body expressed disapproval of the document.
