

BS 4427 : Part 5 : 1974

UDC [661.833.456 + 661.833.458] : 546.33'185 : 620.168.32

Methods of test for
Sodium tripolyphosphate
(*pentasodium* triphosphate) and
sodium pyrophosphate
(*tetrasodium* pyrophosphate)
for industrial use

**Part 5. Determination of particle size
distribution**

Gr 3

British Standards Institution

This British Standard, having been approved by the Chemicals Industry Standards Committee, was published under the authority of the Executive Board on 7 June, 1974.

©British Standards Institution, 1974

ISBN: 0 580 08011 0

Copyright

Users of British Standards are reminded that copyright subsists in all BSI publications. No part of this publication may be reproduced in any form without the prior permission in writing of BSI. This does not preclude the free use, in the course of implementing the standard, of necessary details such as symbols and size, type or grade designations. Enquiries should be addressed to the BSI Secretariat.

Contract requirements

Attention is drawn to the fact that this British Standard does not purport to include all the necessary provisions of a contract.

Revision of British Standards

In order to keep abreast of progress in the industries concerned, British Standards are subject to periodical review. Suggestions for improvements will be recorded and in due course brought to the notice of the committees charged with the revision of the standards to which they refer.

British Standards are revised, when necessary, by the issue either of amendment slips or of revised editions. **It is important that users of British Standards should ascertain that they are in possession of the latest amendments or editions.** Full information on all BSI publications, numbering over 6000, will be found in the *British Standards Yearbook*. This information is supplemented by details published each month in *BSI News* of new publications, revisions and amendments.

BSI News is available to Subscribing Members of the Institution. All other publications may be purchased direct from Sales Department. Enquiries concerning subscribing membership, which has considerable advantages, will be welcomed, and should be made to Subscriptions Department. Both departments are located at:

101 Pentonville Road, London N1 9ND (Telephone 01-837 8801 ; Telex 23218).

The following BSI references relate to the work on this standard:

Committee reference CIC/25 Draft for comment 72/55290

Co-operating organizations

The Chemicals Industry Standards Committee, under whose supervision this British Standard was prepared, consists of representatives of the following Government departments and scientific and industrial organizations:

British Steel Industry	*Fertiliser Manufacturers' Association Limited
*Chemical Industries Association	Ministry of Agriculture, Fisheries and Food
Department of Health and Social Security	National Sulphuric Acid Association
Department of Trade and Industry-Chemicals and Textiles Division	Royal Institute of Public Health and Hygiene
*Department of Trade and Industry-Laboratory of the Government Chemist	Soap and Detergent Industry Association

The Government department and industrial organizations marked with an asterisk in the above list, together with the following, were directly represented on the committee entrusted with the preparation of this British Standard:

British Pharmacopoeia Commission	National Association of Soft Drink Manufacturers
Campden Food Preservation Research Association	Society for Water Treatment and Examination
Flour Milling and Baking Research Association	Textile Institute
Institute of Metal Finishing
