UDC 621.643.44

Ref. No. ISO 6447-1983 (E)

Descriptors : rubber, rubber products, sealing rings, pipelines, pipe joints, materials specifications, quality control.

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been authorized has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 6447 was developed by Technical Committee ISO/TC 45, *Rubber and rubber products*, and was circulated to the member bodies in June 1982.

It has been approved by the member bodies of the following countries :

Austria	India	Spain
Belgium	Indonesia	Sri Lanka
China	Korea, Rep. of	Sweden
Czechoslovakia	New Zealand	Turkey
Denmark	Poland	USA
Egypt, Arab Rep. of	Portugal	USSR
France	South Africa, Rep. of	

The member bodies of the following countries expressed disapproval of the document on technical grounds :

Netherlands
United Kingdom
