

INTERNATIONAL
STANDARD

ISO
2852

Second edition
1993-06-15

**Stainless steel clamp pipe couplings for the
food industry**

Raccords rapides en acier inoxydable pour l'industrie alimentaire

Reference number
ISO 2852:1993(E)

Contents

	Page
1 Scope	1
2 Normative references	1
3 Definitions	1
4 Symbols	1
5 Dimensions and tolerances	2
5.1 Expanded-type clamp liner	2
5.2 Welded-type clamp liner	2
5.3 Gasket	2
6 Assembling	2
6.1 Welding	2
6.2 Expansion	2
7 Hygienic requirements	2
8 Surface roughness	2
9 Materials	2
9.1 Clamp liners	2
9.2 Gaskets	2
 Annexes	
A Cross-section of clamp pipe coupling assembly	6
B Grooving for expanded-type clamp liners	7
C Lock rings for expanded-type clamp liners	9
D Method of expansion with straight pipe	10
E Bibliography	12

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work. ISO collaborates closely with the International Electrotechnical Commission (IEC) on all matters of electrotechnical standardization.

Draft International Standards adopted by the technical committees are circulated to the member bodies for voting. Publication as an International Standard requires approval by at least 75 % of the member bodies casting a vote.

International Standard ISO 2852 was prepared by Technical Committee ISO/TC 5, *Ferrous metal pipes and metallic fittings*, Sub-Committee SC 1, *Steel tubes*.

This second edition cancels and replaces the first edition (ISO 2852:1974), the requirements of which for expanded-type clamp liners, welded-type clamp liners, gaskets and materials for clamp liners have been technically revised.

Annexes A, B and C form an integral part of this International Standard. Annexes D and E are for information only.
