

Steel die forgings – Tolerances on dimensions

Part 1: Drop and vertical press forgings

English version of DIN EN 10243-1

DIN**EN 10243-1**

ICS 17.040.10; 77.140.85

Gesens Schmiedeteile aus Stahl – Maßtoleranzen – Teil 1: Warm
hergestellt in Hämmern und Senkrecht-PressenThis standard, together with
DIN EN 10243-2, June 2000
edition, supersedes DIN 7526,
January 1969 edition.

2000年9月28日

European Standard EN 10243-1 : 1999 has the status of a DIN Standard.*A comma is used as the decimal marker.***National foreword**

This standard has been prepared by ECISS/TC 28.

The responsible German body involved in its preparation was the *Normenausschuss Eisen und Stahl* (Steel and Iron Standards Committee).**Amendments**

DIN 7526, January 1969 edition, has been superseded by the specifications of EN 10243-1 and EN 10243-2.

Previous edition

DIN 7526: 1969-01.

EN comprises 39 pages.

050920040273

ICS 77.140.85

English version

Steel die forgings – Tolerances on dimensions

Part 1: Drop and vertical press forgings

Pièces forgées par estampage en
acier – Tolérances dimensionnelles –
Partie 1: Pièces exécutées à chaud sur
marteaux-pilons ou presses verticales

Gesenkschmiedeteile aus Stahl –
Maßtoleranzen – Teil 1: Warm
hergestellt in Hämmern und
Senkrecht-Pressen

This European Standard was approved by CEN on 1999-08-22.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

The European Standards exist in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, the Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, the Netherlands, Norway, Portugal, Spain, Sweden, Switzerland, and the United Kingdom.

Contents

Foreword	2
1 Scope	3
2 Normative references	4
3 Symbols	4
4 Information required in determining tolerances	4
4.1 Mass of forging.....	5
4.2 Shape of die line.....	5
4.3 Category of steel used	5
4.4 Shape complexity factor	6
4.5 Types of dimension	8
5 Categories of tolerances	8
5.1 Scope of categories.....	8
5.2 Definition of categories.....	10
5.3 Deviations of form	19
6 Use of tables	20
6.1 Tables 1 and 2 : Tolerances for length, width and height, residual flash (and trimmed flat), and mismatch	20
6.2 Tables 3 and 4 : Tolerances for thickness and ejector marks.....	23
6.3 Table 5 : Tolerances for straightness, flatness and tolerances for centre-to-centre dimensions	23
6.4 Table 6 : Tolerances for fillet and edge radii ; tolerances for burrs ; tolerances for sheared ends.....	23
7 Design procedure	23
7.1 Information required by the forger	23
7.2 Preparation of forging drawing	24
7.3 Indication of dimensions on forging drawing.....	24
7.4 Indication of tolerances on forging drawings.....	24
7.5 Importance of forging drawing	24
Annex A (informative) Examples of application	30

Foreword

This European Standard has been prepared by Technical Committee ECISS/TC 28 "Steel forgings", the secretariat of which is held by BSI.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by March 2000, and conflicting national standards shall be withdrawn at the latest by March 2000.

This European Standard has been prepared under a mandate given to CEN by the European Commission and the European Free Trade Association. This European Standard is considered to be a supporting standard to those application and product standards which in themselves support an essential safety requirement of a New Approach Directive and which make reference to this European Standard.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.
