**TO: Standards Technical Panel for Power Distribution Equipment, STP 67  
Subscribers to UL's Standards Service for  
Dead-Front Switchboards**

**SUBJECT: Opportunity to Comment on Proposed Requirements for the Proposed Eleventh  
Edition of the Standard for Switchboards, UL 891**

***Summary of Topics***

***This announcement informs UL subscribers and STP members that an interim harmonized draft of the Standards for Switchboards, UL 891 is available for review and comment.***

UL announces the opportunity for interested parties to provide early comments to the working draft of the harmonized standard for Switchboards, UL 891, prior to its proposal as a new edition standard.

A Technical Harmonization Committee (THC) was formed to harmonize switchboard requirements between the United States, Canada and Mexico. UL is participating on the THC. The harmonization effort is a work in progress with the committee meeting on a regular basis. To facilitate the harmonization process and address industry concerns throughout the harmonization development process, UL is making the preliminary draft available to those interested.

A preliminary draft document has been posted on UL's web site <http://ulstandardsinfolnet.ul.com/harm/index.html> for your review and comment. At this site, choose the interim drafts option. Comments to the posted material should be forwarded to the THC Chair indicated below. It is recommended that you provide any comments by June 23, 2003 to give the THC sufficient time to make changes in the draft, if changes are warranted. UL intends to post updated drafts periodically for your review and comment during the development process. An announcement bulletin will be sent to UL Subscribers whenever new material is posted for review.

Written comments may be sent by regular mail, e-mail, or by fax to the attention of Mr. Jim Carroll at Square D, 1010 Airpark Center Drive, Nashville, TN 37217, E-mail: [carrollj@squared.com](mailto:carrollj@squared.com), Fax: (615) 844-8788. Please reference all correspondence to Subject 891. If you respond by E-mail or fax, please include your full name and company address to facilitate a reply, if the THC desires to correspond. Please provide a copy of your comments to Kevin Mullahy at the address indicated below for UL's records.
