# National foreword

This British Standard is the UK implementation of EN 60384-2:2005. It was derived by CENELEC from IEC 60384-2:2005. It supersedes BS QC 300400:1983 and BS CECC 30 400:1984 which are withdrawn.

The CENELEC common modifications have been implemented at the appropriate places in the text and are indicated by tags (e.g. [C] [C]).

The UK participation in its preparation was entrusted to Technical Committee EPL/40X, Capacitors and resistors for electronic equipment.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
