

Drain and sewer systems outside buildings

Part 1. Generalities and definitions

The European Standard EN 752-1 : 1995 has the status of a
British Standard

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Technical Committee B/505, Wastewater engineering, to Subcommittee B/505/22, Drainage systems outside buildings, upon which the following bodies were represented:

Association of Consulting Engineers
 British Plastics Federation
 Clay Pipe Development Association Limited
 Concrete Pipe Association
 Department of the Environment
 Department of the Environment (Property and Buildings Directorate)
 Fibre Cement Manufacturers' Association Limited
 Institute of British Foundrymen
 Institution of Civil Engineers
 Institution of Water and Environmental Management
 METCOM
 Water Services Association of England and Wales

The following bodies were also represented in the drafting of the standard, through subcommittees and panels.

Association of Building Engineers
 British Pump Manufacturers' Association
 Department of the Environment (Building Research Establishment)
 Department of the Environment for Northern Ireland
 Health and Safety Executive
 Institute of Building Control
 Institute of Plumbing

This British Standard, having been prepared under the direction of the Sector Board for Building and Civil Engineering, was published under the authority of the Standards Board and comes into effect on 15 April 1996
