THIS BRITISH STANDARD, having been approved by the Refrigeration, Heating and Air Conditioning Industry Standards Committee, was published under the authority of the Executive Board on 7 April, 1972.

©British Standards Institution, 1972.

SBN : 580 07121 9

The Institution desires to call attention to the fact that this British Standard does not purport to include all the necessary provisions of a contract.

In order to keep abreast of progress in the industries concerned, British Standards are subject to periodical review. Suggestions for improvements will be recorded and in due course brought to the notice of the committees charged with the revision of the standards to which they refer.

A complete list of British Standards, numbering over 5000, fully indexed and with a note of the contents of each, will be found in the British Standards Yearbook, which may be purchased from BSI Sales Department. It may also be consulted in many public libraries and similar institutions.

This standard makes reference to the following British Standards and Code of Practice:

- BS 874. Methods of determining thermal properties, with definitions of thermal insulating terms.
- BS 2972. Methods of test for thermal insulating materials.
- BS 3533. Glossary of terms relating to thermal insulation.
- BS 3958. Thermal insulating materials.
- CP 3005. Thermal insulation of pipework and equipment.

*British Standards are revised, when necessary, by the issue either of amendment slips or of revised editions. It is important that users of British Standards should ascertain that they are in possession of the latest amendments or editions.*
