

Devices to prevent pollution by backflow of potable water — Automatic diverter — Family H, type C.

ICS 13.060.20

National foreword

This British Standard is the UK implementation of EN 14506:2005.

The UK participation in its preparation was entrusted to Technical Committee B/504/4, Backflow Prevention.

A list of organizations represented on this committee can be obtained on request to its secretary.

The UK technical committee B/504 would like to draw attention to the procedure in 10.4.4.2 in which a low pressure is applied to the device whilst in flow to bath mode. In the opinion of the committee this is unlikely to demonstrate the ability of the device to remain leak tight at the shower outlet when a high bath flow is drawn. Therefore, the committee is of the opinion that instead of a pressure being applied, a flow rate of 0,75 would be a more effective method of testing.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 31 March 2009

Dispositifs de protection contre la pollution de l'eau potable
par retour - Inverseur à retour automatique - Famille H, type
C

Sicherungseinrichtungen zum Schutz des Trinkwassers
gegen Verschmutzung durch Rückfließen - Automatischer
Umsteller - Familie H, Typ C

This European Standard was approved by CEN on 24 December 2004.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden, Switzerland and United Kingdom.
