

# Railway applications — Methods of specifying structural requirements of bogie frames

The European Standard EN 13749:2005 has the status of a  
British Standard

ICS 45.040

## National foreword

This British Standard is the official English language version of EN 13749:2005.

The UK participation in its preparation was entrusted by Technical Committee RAE/3, Railway rolling stock material, to Subcommittee RAE/3/-/3, Bogie frames, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this subcommittee can be obtained on request to its secretary.
