LUFT-UND RAUMFAHRT

The text of this standard, which exists in three equivalent versions (English, French, German) has been drawn up under the responsibility of AECMA (Association Européenne des Constructeurs de Matériel Aérospatial) and has been circulated to Official Services. Any reservations expressed by Official Services and not resolved in this issue, have been incorporated in the history sheet which has accompanied this prEN to CEN.

It is published on yellow paper as a draft European Standard intended to receive, under the same presentation and according to its own rules, the approval of CEN (European Committee for Standardization).

(Page 2 is blank)

Approved by
COMITÉ DE NORMALISATION
of A.E.C.M.A. 1978-08-24

The equivalent versions in French and German languages can be supplied by B.N.A.E., 8, rue Moreau-Vauthier
92100 BOULOGNE-BILLANCOURT - FRANCE.
