Start of application

The start of application of this standard is 1 November 2010.

National foreword

This standard includes safety requirements.

This standard has been prepared by Technical Committee CEN/TC 153 "Machinery intended for use with foodstuffs and feed" (Secretariat: DIN, Germany).

The responsible German body involved in its preparation was the *Normenausschuss Maschinenbau* (Mechanical Engineering Standards Committee), Working Committee NA 060-18-04 AA *Großküchenmaschinen* of Section *Nahrungsmittelmaschinen*.

This standard contains specifications meeting the essential requirements set out in Annex I of the new "Machinery Directive", Directive 2006/42/EC, and which apply to machines that are either first placed on the market or commissioned within the EEA. This standard serves to facilitate proof of compliance with the essential requirements of that directive.

Once this standard is cited in the Official Journal of the European Union, it is deemed a "harmonized" standard and thus, a manufacturer applying this standard may assume compliance with the requirements of the Machinery Directive ("presumption of conformity").

The European Standards referred to in Clause 2 and in the Bibliography of the EN have been published as the corresponding DIN EN or DIN EN ISO Standards with the same number.

Amendments

This standard differs from DIN EN 14655:2005-09 as follows:

- a) the standard has been brought in line with the new Machinery Directive 2006/42/EC;
- b) Annex ZA (informative) "Relationship between this European Standard and the Essential Requirements of EU Directive 2006/42/EC" has been added.
