

Basket trolleys —

Part 2: Requirements, tests and inspection for basket trolleys with or without a child carrying facility, intended to be used on passenger conveyors

The European Standard EN 1929-2:2004 has the status of a British Standard

ICS 97.130.30

National foreword

This British Standard is the official English language version of EN 1929-2:2004.

The UK participation in its preparation was entrusted to Technical Committee CW/51, Self-service shopping trolleys, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this committee can be obtained on request to its secretary.

Additional information

In the United Kingdom, in order to facilitate emergency evacuation in certain buildings, the width of the passenger conveyor may need to be wider than specified in this standard. The appropriate UK “Health and Safety Regulations” and “Building and Fire Regulations” must be consulted and observed.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the *BSI Catalogue* under the section entitled “International Standards Correspondence Index”, or by using the “Search” facility of the *BSI Electronic Catalogue* or of British Standards Online.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.
