First edition — 1978-10-15

UDC 676.1 : 620.1 : 543.814

Ref. No. ISO 638-1978 (E)

Descriptors : paper pulps, determination of content, dry matter, measurement, dehydration analysis.

FOREWORD

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been set up has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 638 was developed by Technical Committee ISO/TC 6, *Paper, board and pulps*, and was circulated to the member bodies in September 1977.

It has been approved by the member bodies of the following countries :

Australia	India	Poland
Austria	Iran	Romania
Belgium	Ireland	Spain
Canada	Israel	Sweden
Chile	Italy	Switzerland
Czechoslovakia	Kenya	Turkey
Egypt, Arab Rep. of	Korea, Rep. of	United Kingdom
Finland	Mexico	U.S.A.
France	Netherlands	U.S.S.R.
Germany, F.R.	New Zealand	
Hungary	Norway	

No member body expressed disapproval of the document.

This International Standard cancels and replaces ISO Recommendation R 638-1967, of which it constitutes a technical revision.
