## **Amendments**

This standard differs from DIN EN ISO 3743-1:2009-11 as follows:

- a) the determination of sound energy levels has been included;
- b) specifications relating to the measurement uncertainty have been extended and a GUM-based approach has been included;
- c) Annex A "Sound power level and sound energy level under reference meteorological conditions" has been added;
- d) Annex C "Guidelines on the development of information on measurement uncertainty" has been added;
- e) the standard has been editorially revised.
